WORK EXPERIENCE

Wells Fargo – *Web Developer, Nov. 2016-present*

Working with the Wells Fargo in-house marketing agency, creating and maintaining several WF-owned properties for clients, ranging from single landing pages to blogs to fully custom web applications. Researched and implemented new and modern web technologies to help bring cutting edge features to clients' sites. Enhanced existing websites to comply with WCAG 2.0 accessibility standards.

Skills: PHP, HTML, MySQL, JS, CSS, Git, WordPress

University of North Carolina at Charlotte – *Teaching Assistant, Aug. 2014-Jun. 2015*

Worked as a teaching assistant for the Intro to Web Development course, tutoring students as well as assisting in the course lab. Responsibilities included grading quizzes and assignments.

Skills: PHP, HTML, JS, CSS

University of North Carolina at Charlotte – *Web Developer, Aug. 2014-Jun. 2015*

Worked with a professor on an internal student management web application for the UNCC STARS Computing Corps group. Performed general maintenance and regular data entry.

Skills: PHP, HTML, MySQL, JS, CSS

Medscape from WebMD – *Intern/Web Developer, May 2014-Aug. 2015*

Worked as a part of the development team for the MedSims Virtual Patient Simulator. Worked hands-on with the rest of the full-time developers and contributed directly towards the project's 3.0 release. Performed maintenance and bugfixes on the application, and developed two applications for internal use.

Skills: PHP, Zend Framework, HTML, MySQL, JS, CSS, Git

Freelance Web Developer – Aug. 2012-Aug. 2014

Worked on assorted projects for various clients, from site maintenance and updates to developing sites from the ground up.

Skills: PHP, HTML, MySQL, JS, CSS, WordPress
